

In this report I will briefly explain my tasks from both enterprise pro coursework's. Coursework 1 and 2. The task will all be explained from my point of view.

Tasks:

- Report to introduce team and expertise.
- Review of the project specs and requirements to describe the rational (reasons) of topic choice. Ext...
- NDA (Nondisclosure agreement)
- Task Allocation
- Planning/Tasks
- Story
- Meeting minutes
- Reflection on Legal, Social, Ethical and Political issues

Explanations:

Report- Short and competitive. Used to introduce team and expertise.

Review- Review of the project specs and requirements to describe the rational (reasons) of topic choice.

NDA (Nondisclosure agreement)- A document agreeing that all of my work will not be unnecessarily shared with others.

Task allocation- Brief document detailing various tasks.

Planning/Tasks- With the help of Mudasser Ijaz, A Gantt chart was created to help distribute tasks.

Story Cards- A PDF file including the set of all story cards, associated with the first and second iteration. It is stored in the Documentation repository of GitHub.

Meeting Minutes- A set of weekly meeting minutes discussing various tasks such as team activity and task allocation. It is stored in the Minutes repository of your GitHub.

Reflection on Legal, Social, Ethical and Political issues- A PowerPoint presentation detailing these issues in relation to the website code produced. Final draft stored as PDF format for better presentation.
